

75th ANNIVERSARY EXTENSION SERVICE

Paul Daniels and Mary Bacon

Former Extension Workers Honored

17 May 1989
Paul R. Daniels and Mary Bacon were recognized and honored at a program and Open House at the County Courthouse on Monday, May 8. The occasion for their honor was the 75th anniversary of the Extension Service. Paul and Mary were both employed by the Extension Service here in Wasatch County for more or less 20 years each.

Current Extension Agents Val Warnick and Debbie Proctor hosted

the Open House and presented Paul and Mary with Collector Plates and a Norman Rockwell painting about "The County Agent" from Wasatch County.

Also paying tribute to Paul and Mary, as well as the other past Extension Workers by giving short talks, were Vern Price, Dezzie Probst, and Emer Wilson. It was a nice recognition to two fine Wasatch County residents. Thanks Paul Daniels and Mary Bacon.

Creeper Rehabilitation

Heber City and the Heber Valley Chamber of Commerce have offered to help with the repairs being done on The Heber Creeper, according to Don Bertell, Trax Engineering.

The Utah Department of Transportation (UDOT) hired Bertell to inspect the railroad, identify and prioritize the repairs, and write the specifications for contractors. He took four contractors on a tour of the line last week and said their bids for laying 4,000 ties will be opened May 24.

However, he urged Wasatch County and the railroad owners to do as much of the work as possible, beginning immediately, to reduce the costs of the contract, and to provide \$125,000 worth of labor and equipment.

The State Legislature appropriated \$125,000 and must be locally

matched. The appropriation expires on June 30 and must be committed by that time. Bertell estimated the contract to lay the ties will be close to that amount but can be reduced by \$4 per tie depending on how much preparation work is done locally. The match must also be committed by June 30, although the work doesn't need to be completed.

Bertell listed the responsibilities that can be done locally, including grading, cutting trees, controlling rodents and weeds, and hauling the ties and other materials. He said Heber City and the Chamber offered to help with vegetation control along the right-of-way, like cutting trees, and that the City would also help with canal problems. Proper drainage is important in order to preserve the ties.

Court Report

Truck Driver Charged with DUI

One class B misdemeanor charge of driving under the influence of alcohol and/or drugs and a class A misdemeanor charge for failing to obey the command of a police officer have been filed against a semi truck driver, Franklin D. Shuman.

On April 4, Shuman allegedly drove past the Daniels Port of Entry, on U.S. 189, without stopping. According to the charges, he allegedly stopped when he was pur-

Ralph Young, in connection with the theft of six saddles and other tack, in two separate incidents in November, 1988.

One second degree felony charge of burglary of a dwelling, and a class A misdemeanor charge of burglary of a vehicle have been filed against Scott Anderson, in connection with an April 28 incident.

One count of second degree
